

## Federal Communications Commission

## § 63.23

available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(f) The carrier shall file annual international circuit status reports as required by § 43.82 of this chapter.

(g) The authority granted under this part is subject to all Commission rules and regulations and any conditions or limitations stated in the Commission's public notice or order that serves as the carrier's Section 214 certificate. See §§ 63.12, 63.21 of this part.

[64 FR 19065, Apr. 19, 1999, as amended at 64 FR 34741, June 29, 1999]

### § 63.23 Resale-based international common carriers.

The following conditions apply to carriers authorized to resell the international services of other authorized carriers:

(a) A carrier authorized under § 63.18(e)(2) of this part may provide resold international services to international points for which the applicant qualifies for non-dominant regulation as set forth in § 63.10, except that the carrier may not provide either of the following services unless it has received specific authority to do so under § 63.18(e)(4) of this part:

(1) Resold switched services to a non-WTO Member country where the applicant is, or is affiliated with, a foreign carrier; and

(2) Switched or private line services over resold private lines to a destination market where the applicant is, or is affiliated with, a foreign carrier and the Commission has not determined that the foreign carrier lacks market power in the destination market (see § 63.10(a) of this part).

(b) The carrier may not resell the international services of an affiliated carrier regulated as dominant on the route to be served unless it has received specific authority to do so under § 63.18(e)(4) of this part.

(c) Except as provided in paragraph (b) of this section, the carrier may resell the international services of any authorized common carrier, pursuant to that carrier's tariff or contract duly filed with the Commission, for the provision of international basic switched, private line, data, television and busi-

ness services to all international points.

(d)(1) Except as provided in paragraph (d)(2) of this section, the carrier may provide switched basic services over its authorized resold private lines if and only if the country at the foreign end of the private line appears on a Commission list of countries to which the Commission has authorized the provision of switched services over private lines. See § 63.16. If at any time the Commission removes the country from that list or finds that market distortion has occurred in the routing of traffic between the United States and that country, the carrier shall comply with enforcement actions taken by the Commission.

(2) The carrier may use its authorized resold private lines to provide switched basic services in circumstances where the carrier is exchanging switched traffic with a foreign carrier that lacks market power in the country at the foreign end of the private line.

(3) A foreign carrier lacks market power for purposes of paragraph (d)(2) of this section if it does not appear on the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points. This list is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(e) Any party certified to provide international resold private lines to a particular geographic market shall report its circuit additions on an annual basis. Circuit additions should indicate the specific services provided (e.g., IMTS or private line) and the country served. This report shall be filed on a consolidated basis not later than March 31 for the preceding calendar year.

(f) The authority granted under this part is subject to all Commission rules and regulations and any conditions or limitations stated in the Commission's public notice or order that serves as the carrier's Section 214 certificate. See §§ 63.12, 63.21 of this part.
